

ROBO TECH VALLEY

Project Showcase (ROBO TECH OLYMPIAD 2024)

The project video must be submitted for the project showcase competition. You can submit your video drive link in the submission form.

Video Making Guidelines:

- Problem Statement (what problem is intended to solve)
- Beneficiary (who and how many people will be benefitted)
- Solution Statement (how the intended solution is achieved)
- Financial Viability (in the context of Bangladesh)
- Challenges (what are bottlenecks)
- Future Expansion (how the solution will be evolved if any)
- May have supportive graphics, illustrations, and video.
- Videos should not more than 3 minutes.

Marks:

- Problem Statement – 15%
- Beneficiary -15%
- Solution Statement – 20%
- Financial Viability – 15%
- Challenges - 15%
- Future Expansion – 5% (how the solution will be evolved if any)
- May have supportive graphics, illustrations or video – 5%
- Presentation – 10%

On the day of the event, you must come to our venue with your robot. It's time to show off your robot. There is no need to bring any presentation slides that day. For your project, posters are acceptable. (Not Required)

Note: Any decision taken by judges is final
